**Synopsis:** Taylor is on the road to happiness and success. She is a gorgeous and classy woman with a thriving career and a wonderful fiancée. One day, Taylor's near perfect world is turned upside down when she discovers her future husband is cheating. To make matters worse, while trying to put the pieces of her life back together, she finds out someone at her job has filed a sexual harassment complaint against her. She realizes someone is out to ruin her life. With Taylor's personal life, profession, and overall reputation at stake, can she overcome it all? Or, will the stress of it all bring out another side of Taylor? See how Taylor will react When Lightning Strikes.

**Taylor's Bio:** Taylor is young, beautiful, successful, confident and full of life. Taylor is on the road to having everything she has ever dreamed of. She is engaged and currently an advertising executive in her career. Taylor is also naïve and nowhere near ready for the things that are about to happen to her.

**Michelle's Bio:** Michelle is a smart, but mentally unstable young woman. She has experienced a lot of pain due to losing loved ones and an unsettling childhood. Since Michelle doesn't know how to re-direct her energy or how to keep her pain and anger under control she tends to focus her attention on other people and making their lives as miserable as hers.
